

Milliken® Liquitint®

Polymeric Colorants for Wood-based panels

A unique technology developed by
Milliken Chemical for household
and industrial applications.

Liquitint® Polymeric Colorants from Milliken Chemical are the perfect solution for coloring wood-based panels for moisture-resistant boards or any other identification or branding application. Their technical benefits explain their success in the market.

Processing Benefits

- Low viscosity, 100% liquids, easy to dose. No dilution required
- No solid particles, no sedimentation, no agitation needed
- No negative effect on production; does not clog filters or pumps
- No staining of skin or equipment
- Fully water soluble, providing a cleaner work environment
- Stable at high temperatures in press; no color fading
- No interaction with the resin and no impact on the viscosity

Performance Benefits

- Uniform coloration throughout the panel
- Color consistent from batch to batch and order to order
- More effective vs traditional pigments; require 3 to 4 times less loading for the same shade
- Cost saving opportunities and less inventory needs

Environmental Benefits and REACH support

- Water-based, non-classified, non-corrosive and non-toxic. No label required
- No heavy metals
- No hazardous dust associated with the use of powder dyes or pigments
- Fully supported under REACH

Please contact your Milliken representative for further product information including chemical registrations, food contact status, and other regulatory details.

PLEASE NOTE: As each customer's use of our product may be different, information we provide, including without limitation, recommendations, test results, samples, care/labeling/processing instructions or marketing advice, is provided in good faith but without warranty and without accepting any responsibility/liability. Each customer must test and be responsible for its own specific use, further processing, labeling, marketing, etc. All sales are exclusively subject to our standard terms of sale posted at www.milliken.com/terms (all additional/different terms are rejected) unless explicitly agreed otherwise in a signed writing.
