

Milliken Hyperform HPN 58ei

High-Performance Additive for Polypropylene

Hyperform® HPN® 58ei is a performance additive for homopolymer polypropylene, designed to enhance the appearance of thermoformed packaging parts and sheets.

Key Attributes

Enhanced optical performance

Excellent isotropic shrinkage

Fresher looking regrinds/parts

Broaden FDA conditions of use approval (A-J)

Improved productivity

Typical applications

Food and beverage packaging, meat packaging, microwavable food packaging, electronics packaging

Processing

Sheet extrusion and thermoforming

Enhanced Optical Performance

Reduces sheet and TF part haze for better aesthetic

Hyperform HPN 58ei

High-Performance Additive for Polypropylene

Excellent Isotropic Shrinkage

Delivers uniformed shrinkage profile to make more consistent quality

Cup Rim Ovality

Improved Productivity

Increases cycle rate without compromising part quality

Cycle Rate | TF Portion Cups* (parts/min)

Fresh Looking Regrind

Reduces yellowness index (YI) to make regrind more color stable

Yellowness Index (YI) | Pellets - Multipass Extrusion
