CARPET FEATURES

BACKING — Our carpet was made for high-traffic areas and won't lose their beauty like substandard floors do. Milliken WellBAC® open-cell cushion backing absorbs impact, extending life up to 50% longer than hardback, with an industry-leading Lifetime Warranty.

ACOUSTICS — Milliken makes the quietest floors in the industry. The acoustic technology of our carpet and Laterals LVT reduces in-room and through-floor noise by up to 50% compared to other flooring.

MOISTURE — We developed flooring systems to avoid costly moisture mitigation. Our carpet's WellBAC® open-cell backing allows the floor to breathe and moisture to evaporate. Our carpet has one-step no-test warranty options, and you can save significantly on prep, materials, and installation.

STAIN AND SOIL PROTECTION — StainSmart provides lifetime resistance for your carpet against penetrating stains and soil.

CARBON NEUTRAL PRODUCT — Climate change is one of the greatest threats facing humanity, and we are all responsible. That's why Milliken launched the M/PACT™ carbon neutral program. Today, our carpet, LVT and entryway tiles are carbon neutral everywhere in the world.

HOME2 FLOORING SOLUTION BY MILLIKEN
