## Open Studio

*An Abundance of Creativity*

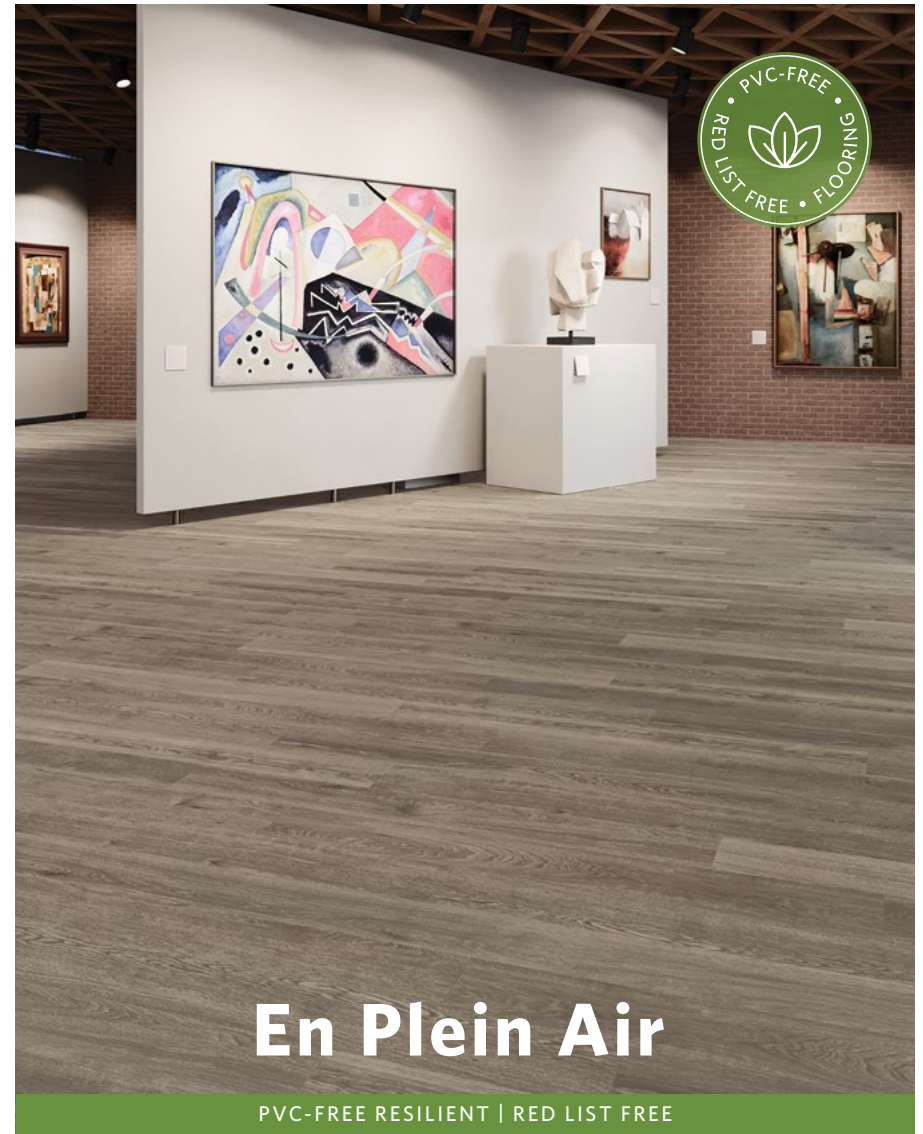

The Open Studio collection is a tribute to artistic experimentation and time-honored techniques. The driving force behind this collection encourages a hands-on, artistic approach to design—an open space to create something new. Pulling from several multimedia techniques such as plaster and printing, art mediums have been translated into innovative carpet designs. With four neutral patterns and one color-forward pattern, we invite you to take on the role of an artist and bring your design vision to life.

## En Plein Air

PVC-FREE RESILIENT | RED LIST FREE

The En Plein Air collection is designed with both people and the planet in mind. As our third PVC-Free collection, it reflects our commitment to creating healthier indoor environments without compromising on design. Inspired by the fluid, expressive nature of outdoor painting, these designs bring a sense of movement, tranquility and connection to any space. Combining well-being with artistic influence, this collection proves that great design can be both beautiful and responsible.

*Design Born  
of Wellness*

**Light + Shadows**

*The Art Beneath  
Your Feet*

Let your inner artist take creative control. Inspired by the art of plaster manipulation, the Light + Shadows collection explores depth and dimension. Each design captures the organic movement and tactile richness of hand-applied plaster. Subtle variations and intricate surface effects create an interplay of light and shadow, enhancing the natural character of the flooring. The result is a richly textured foundation that balances artistry with modern performance.

# Watercolor

## *Sustainable Fluidity*

Introducing the Gallery: Watercolor collection, inspired by the visuals of free-flowing watercolor washes. Tap into a serene design sensibility with this collection that promotes wellness through art and sustainable composition. These selections celebrate fluidity and soft transitions of color, providing an enchanting motif for a variety of interiors.
