

WellBAC[®] FUNCTION

PREMIUM PVC-FREE CARPET

Featuring an innovative, ecologically responsible hard backing

Modular tile solution.

WellBAC[®] Function is Milliken's innovative modular tile solution. Not only is it an ecologically responsible, PVC-Free backing system, but it is also optimized for ultimate performance and quality.

SUSTAINABILITY

- Carbon Neutral
- Declare, Red List Free 3rd Party Verified, and Cradle to Cradle Silver

BETTER INDOOR AIR QUALITY & SAFETY

- CRI Green Label Plus Certified - lowest emitting carpet, adhesive and cushion products on the market.
- Polyolefin Based Backing
- PVC-free, No Plasticizer (Pthalate-Free) and 100% recyclable

FACE FABRIC

Patterns and structures made up of nylon yarns with our state of the art tufting technology.

PRIMARY BACKING

The face yarn is tufted through a high quality non-woven textile. The structure of the textile holds the yarn in place acting as the primary backing.

PRECOAT

The precoat layer locks the tufted yarns in the primary backing to ensure good tuft bind strength between the yarns and the backing.

FIBERGLASS

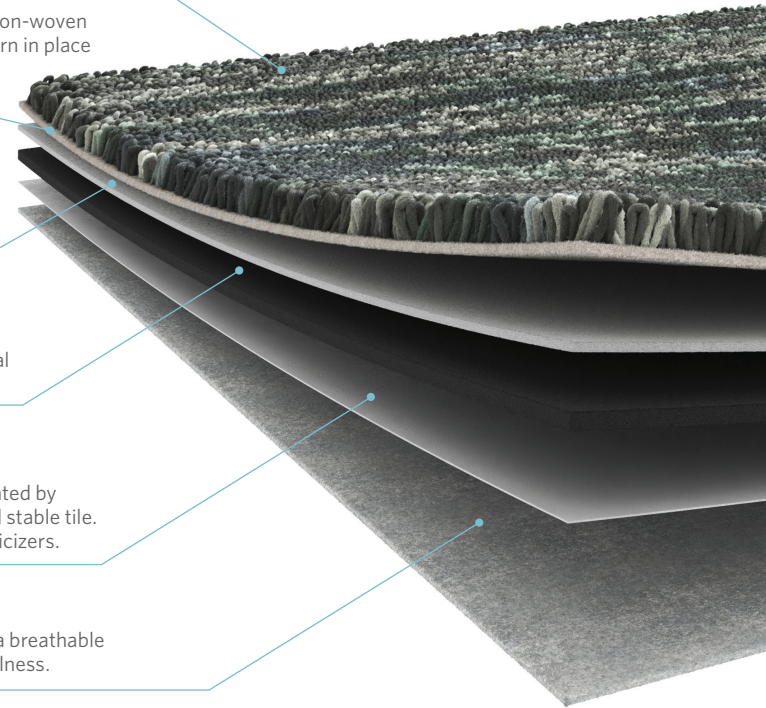

A high quality fiberglass layer is embedded in the polyolefin compound to ensure dimensional stability of the tile.

SECONDARY BACKING

Proprietary Polyolefin compound layer formulated by Milliken R&D scientists to create a durable and stable tile. Our formulation does not contain PVC or plasticizers.

FELT BACK

A protective non-woven textile layer provides a breathable non-reactive finish. It enhances health and wellness.

Milliken's opening price point backing system is an excellent choice for projects with small-scale budgets.
