

Vis™ Tape

Pull tape with the power of MPrint™

Vis Tape with MPrint technology improves productivity and reduces total costs by eliminating rework and scrap. Our unique MPrint process increases print durability and legibility, while ensuring print length accuracy and a significantly softer feel. Vis Tape is offered in standard, detectable and color coded formats.

Features & Benefits

- Industry-leading Mprint technology provides higher print quality and increased legibility
- Meets all minimum requirements for ASTM F2160 specifications
- Print length accuracy within 99% reduces inaccurate measurements
- Softer feel for easier, more efficient knotting and less rework
- Fast, efficient delivery means minimal lead time
- VTDET: detectable tape for locating easily
Available in 1,250 lb or 1,800 lb tape
