

ANSWERING THE CALL FOR A NON-PFAS SYSTEM

With Assure, Milliken became the first and only U.S.-based manufacturer to offer a non-PFAS fabric for every layer of a firefighter's turnout gear. Fire departments and PPE committees can now specify fully non-PFAS turnout gear coats and pants that provide the same levels of comfort, durability and performance they depend on, without the chemicals they don't.

Horizon/Assure/Equinox 3-Layer

- + 275 THL
- + 40.9 TPP

Horizon/Assure/Equinox 2-Layer

- + 293 THL
- + 38.2 TPP

UL data - NFPA 1971-2018 certified November 2024

MILLIKEN HORIZON[™]

Outer Shell Fabric

POWERED BY COLORSEAL TECHNOLOGY

CONSISTENT COLOR FROM THE FIRST WEAR TO THE LAST

With Horizon, your department can count on gear that fosters station pride and performs when it matters most. Our fabric retains its vibrant color wash after wash, outperforming the competition. See the difference for yourself in the comparison below.

MILLIKEN HORIZON™

OUTER SHELL FABRIC THAT RESISTS FADING

Milliken Horizon™ with ColorSeal™ technology ensures your turnout gear keeps its original color, call after call.

+ Superior Color Retention:

Our fabric holds its deep, true black color through 50+ washes, ensuring your gear doesn't fade and always looks sharp.

+ Outstanding Fade Resistance:

Designed to withstand 120 hours of UV exposure, our fabric resists fading from sunlight, keeping your gear looking new.

+ Enduring Performance:

Even after repeated laundering, our fabric maintains its strength and durability, providing consistent — and critical — protection for your team.
