

Milliken®

Bullseye®

Blue Spray Pattern Indicator

Bullseye® Blue Spray Pattern Indicator is designed for use in forestry and industrial weed control applications such as bare grounds, rights-of-way, forestry, handgun and spot spraying. Bullseye provides visual assurance that these solutions are uniformly applied, with minimum overlap and no missed areas. Bullseye helps to alert the operator to improper equipment operation as well as improves safety during application by increasing user awareness during and after the application of potentially hazardous chemicals.

Features

HIGHLY VISIBLE

- Bright and deep colorant for easy visualization during application
- Reduces excessive overlap and missed application of pesticides and fertilizers
- Color is temporary and easily dissipates with environmental exposure

EASY HANDLING

- Non-staining on most skin, clothing, and hard surface applications
- Cleans with soap and water
- Aids in identifying optimal performance of equipment such as line/connection leaks, clogged nozzles, and spray drift during application
- Inert with most formulations
- Completely water soluble

ENVIRONMENT, HEALTH & SAFETY

- Environmentally conscious colorant
- Increases the awareness during and after the application of potentially hazardous chemicals

Application Rates in Tank Mix Formulations

	APPLICATION	APPLICATION RATE; IMPERIAL [METRIC]	TREATED AREA; IMPERIAL [METRIC]
	Baregrounds and gravel	6-14 oz per 100 gallons of spray solution [175-425 mL per 400 L]	Spot spraying
	Rights-of-way: woody brush	16-22oz per 100 gallons of spray solution [475-650 mL per 400 L]	Spot spraying
	Rights-of-way: grasses & broadleaf weeds	10-14 oz per 100 gallons of spray solution [300-425 mL per 400 L]	Spot spraying
	Forestry, handgun	1 oz per gallon of spray solution [10 mL per 1 L]	Spot spraying
