MILLIKEN FALL 2024 CREATIONS

# FOUNDATIONAL CONNECTIONS

The flooring selected for a space plays a pivotal role in defining its overall aesthetic and functionality. It not only sets the tone for the design but also influences the atmosphere, durability, and comfort of the space. A well-chosen floor serves as a strong foundation, seamlessly connecting color, finishes, and decor elements.

Made with 100% Regenerated Nylon

## TRACING LANDSCAPES

Inspired by beautiful vistas, undulating hillsides, and rugged cliff lines, Tracing Landscapes connects nature and design. Utilizing Econyl<sup>®</sup> Regenerated Nylon, this sustainably crafted product is good for the planet and people. Drawing from organic influences, this collection offers 2 patterns in a relaxed color palette featuring warm neutrals and natural tones.

Thrive<sup>®</sup> matter

## GRAIN+BIAS

Part of the D/LUX Series, Grain + Bias seeks to redefine practical comfort in modern workspaces while still paying homage to the nostalgic comforts we hold dear. Three patterns, each with a uniquely handcrafted aesthetic, are made with Thrive Matter by Universal Fibers yarn, offering a modern sustainable approach to floorscape design while still capturing the ambiance and appeal of cozier settings.

## RED LIST FREE

Healthy materials are the foundation for effective circularity, reducing community pollution and cleaner living for all.

- The Living Building Challenge Red List contains the “worst in class” materials, chemicals and elements known to pose serious risks to human health and the greater ecosystem.
- Red List Free certification is the absence of Red List chemicals in building and home furnishings.
- Our products have been completely vetted and verified to contain no Red List Chemicals at levels at or above 100 ppm or 0.01 percent.
- Affords superior recycling potential of clean-based products.

Achieving LBC Red List Free is a commitment to significantly cut down on the output and use of harmful chemicals. It reflects our company’s prioritization on human health and ensuring a brighter future for generations to come.

## M/PACT™ Carbon Neutral Product

Climate change is one of the greatest threats facing humanity. That’s why our modular flooring products are carbon neutral everywhere in the world. Let’s work together for a better tomorrow.

## Sustainable features

Our carpet products are manufactured with PVC-Free WellBAC® Comfort cushion backing, and are certified NSF-140 Gold. Some collections are also available with our NSF-140 Platinum backing option. All Milliken modular carpets carry Environmental Product Declarations and Health Product Declarations, which contribute to LEED certification. Additionally, Milliken modular carpets carry Declare® transparency labels and comply with the Red List Imperative of the Living Building Challenge.™

Milliken’s durable, resilient flooring is PVC-Free and Red List Free. Each product is engineered to be both striking and sustainable, helping you find a no-compromise pathway to reach your sustainability goals and simultaneously achieving desired aesthetics. All production waste is granulated and recycled into backing production to create an internal closed loop recycling process.

Milliken resilient flooring meets many environmental standards, including FloorScore® certified, Prop 65 Free and Phthalate Free, Certified EPD, Red List Free, Declare, and Practice Greenhealth.
