

PROGUARD MAX™

Scratch and Stain Resistance at Maximum Performance Levels

An Integrated surface technology that provides best-in-class scratch and stain resistance, making it ideal for commercial environments

APPEARANCE RETENTION

Durability and resistance to erosive wear and tear ensures the appearance retention of the product over its lifetime of use.

RESISTANCE

Best in Category Proguard Max outperforms competitive coatings in scuff, stain, and scratch resistance.

LOW MAINTENANCE

The maintenance methods of this product are simple and straightforward, keeping operation costs low and more affordable.

SAFER FOR EVERYONE

Avoiding the use of harsh chemicals yields a multitude of benefits, including a positive effect on IAQ as well as downstream waste water management.

OTHER DETAILS:

- Simplifies maintenance and assists in IAQ by eliminating the need to apply polish, wax, or sealers.
- Improves hygiene by eliminating the micro-porosity of the surface, where dirt and bacteria typically are entrapped.
- Will not contaminate any adjacent carpet products as no wax or polish is required for maintenance.
- Greatly reduces maintenance costs.
