SCREENPLAY

The Screenplay collection draws inspiration from the structured elegance of architectural screens, blending geometric precision with layered depth. Designed to define space with rhythm and movement, this collection plays with light, shadow, and transparency—much like the interplay of frames in a film. From intricate meshes to bold grid structures, each pattern offers a dynamic balance between openness and enclosure, creating versatile surfaces that shape interiors with both function and artistry.

PATTERN OVERVIEW

Screenplay Collection boasts a selection of four distinct patterned textures: Network, Partition, Frames, and Curtain Call.
