

NEVER UNDERESTIMATE THE POWER OF STRIPES.

INTRODUCING SIGNATURE® STRIPE.

More and more restaurants are discovering that stripes make all the difference in their tabletop décor. Especially when they're Milliken® Signature® Stripe. Our bistro napkins measure 18" x 22" and look better, feel softer and offer less lint than the competition. Their stripes hold color and don't bleed like imported bistro napkins. Plus, they have all the features you would expect from the Signature brand—great soil release, soft hand, very little shrinkage and, of course, color consistency. Call your Signature® supplier or Milliken® LST representative to learn more.

- Stripes will not fade.
- Can be washed with whites.
- Only bistro napkin offering white on white.
- Looks better, feels better than cotton with less linting.
