WORKS WITH WELL

Milliken’s commitment to advancing products and solutions that support human health and well-being is long-standing.

As a founding member of the **Well Living Lab** and a **Well Portfolio Member**, we aspire to design products that enhance the well-being and quality of life of indoor spaces.

We are proud to have been granted the **Works with WELL™** licence across an extensive selection of our global product portfolio, demonstrating how Milliken floor covering products align with specific strategies in the WELL Standard, the leading global standard for health and well-being.

The Works with WELL trademark licensing program recognises products and solutions that contribute to achieving specific features in the WELL Standard. Products that have earned the Works with WELL mark have been validated through one or more review cycles to give specifiers the maximum confidence in their material selections, whether working on a WELL-certified project or simply wanting to ensure they are adopting best practices for healthy, sustainable, people-first spaces for their clients.

| CONCEPT | | FEATURE | FEATURE NAME |
|---------|------------------|---------|--|
| | WATER | W07.2 | Design Interiors for Moisture Management |
| | MOVEMENT | V02.4 | Provide Support at Standing Workstations |
| | MATERIALS | X05.2 | Select Compliant Architectural and Interiors Products |
| | | X06.2 | Restrict VOC Emissions from Furniture, Architectural and Interior Products |
| | | X07.1 | Select Products and Disclosed Ingredients |
| | | X07.2 | Select Products with Enhanced Ingredients Disclosure |
| | | X07.3 | Select Products with Third-Party Verified Ingredients |
| | | X08.1 | Select Materials with Enhanced Chemical Restrictions |
| | | X08.2 | Select Optimised Products |

Driven by the global demand for healthier places and healthier organisations that support people to thrive, WELL adoption has grown exponentially since its launch in 2014. WELL strategies have been used in over 5 billion square feet of space, supporting the health and well-being of an estimated 17 million people in more than 74,000 locations spanning over 130 countries.
