## Milliken & Company Receives 2024 EcoVadis Gold Rating

SPARTANBURG, S.C. — Global diversified manufacturer Milliken & Company today announced that it earned a gold rating on its 2024 EcoVadis assessment. EcoVadis provides trusted business sustainability ratings for more than 130,000 organizations representing more than 220 industries. Milliken's 2024 EcoVadis score, assessed across its chemical, textile, flooring and healthcare operations, again places the company in the top 5% of organizations rated. This is the third consecutive year that Milliken has earned a gold rating from EcoVadis.

"We are honored to receive a gold rating from EcoVadis once again," said Halsey Cook, president and CEO at Milliken. "This achievement reflects our unwavering commitment to sustainability and the significant strides we have made on our journey. Our dedication to promoting transparency and innovation is what drives us to continually improve and reach new heights in our sustainability efforts."

Earlier this year, Milliken released its [sixth annual sustainability report](#) disclosing performance against its 2025 Sustainability Goals and 2050 science-based net-zero targets. The report details the company's key impacts across its people, product, planet, and net-zero measures and provides an understanding of Milliken's governance processes, controls, and procedures to monitor and manage sustainability matters.

"Our sustainability journey is all about making a positive impact on everyone connected to Milliken," said Kasel Knight, Chief Legal Officer and head of sustainability at Milliken. "Third-party assessments keep us accountable, help us track our progress, and show us where we're doing well and where we need to improve."
